ROAD RATING REPORT

LEELANAU COUNTY ROAD COMMISSION LEELANAU COUNTY, MI

LELAND TOWNSHIP 2023

LEELANAU COUNTY ROAD COMMISSION LELAND TOWNSHIP LOCAL ROAD RATINGS REPORT 2023

The goal of the Leelanau County Road Commission is to use Asset Management Strategies when planning upcoming projects for the roads that fall under their jurisdiction. Asset management, as defined by Public Act 199 from 2007, is an "ongoing process of maintaining, upgrading, and operating physical assets cost-effectively, based on a continuous physical inventory and condition assessment." Using asset management strategies will allow the Road Commission and Townships within the County to invest available road funds into future projects in a manner that will provide the greatest return and most effective improvements for the Community.

Figure 1: Leland Township Roads by Jurisdiction

Red = State Highways, Blue = County Primary, Green = County Local, Gray = Undefined (I.E. Private)

Figure 2: Leland Township Roads by Surface Type

Green = Asphalt, Grey = Concrete, Purple = Seal Coat, Yellow = Gravel, Brown = Earth

Figure 3: Leland Township Roads by PASER Rating
Green = Good (8-10), Yellow = Fair (5-7), Red = Poor (1-4), Blue = Unrated

Road Rating Systems

The PASER (Pavement Surface Evaluation and Rating) Road Rating System is utilized by the County to rate the existing local and primary paved roads. PASER is the rating system for paved roads that is utilized in Roadsoft to collect data on the roads. The surface condition of the road can receive a rating between 1 and 10, 1 being the worst and 10 being the best road surface condition. Tables 1 and 2 provided below show the rating as well as suggested maintenance to preserve the road and a cost estimate for the repairs. Typically, seasonal roads are excluded and should show in Roadsoft as unrated.

Table 1: PASER Ratings and Repairs for Paved Roads

Road Rating	Recommended Repair	Estimated Cost Per Centerline Mile
10	No maintenance necessary. New Road	\$0
9	No maintenance necessary. Smooth Surface	\$0
8	Minor Crack Sealing	\$2,000
7	Routine Crack Sealing and/or Minor Patching	\$5,000
6	Patching and Sealcoat Ultra-thin Asphalt Overlay	\$50,000 \$75,000
5	Asphalt Wedging Asphalt Wedging and Sealcoat Asphalt Wedging and Ultra-thin Asphalt Overlay	\$100,000 \$130,000 \$175,000
4	Asphalt Wedging and Structural Overlay	\$185,000
3	Patching and Structural Overlay Pulverize, Gravel and Pave	\$220,000 \$300,000
2	Reconstruction	\$500,000
1	Reconstruction due to failed road	\$500,000

Gravel roads are rated using a system referred to as IBR (Inventory-Based Rating) System™ for Gravel Roads. The rating for a segment of gravel road is determined by considering three separate characteristics for that segment. The three characteristics are surface width, drainage adequacy and structural adequacy, which are all evaluated to determine the segment rating. The segment rating range is 1 to 10.

Table 2: IBR Ratings and Treatments for Gravel Roads

Road Rating	Existing Condition / Recommended Repair	Estimated Cost Per Centerline Mile
10	No maintenance necessary. New Road	\$0
8 to 9	Good crown and drainage throughout. Adequate gravel for traffic. Maintain with grading and dust control.	\$2,000
6 to 7	Existing crown with drainage on 50% or more of roadway. Additional gravel needed in some areas along with ditching.	\$75,000
3 to 5	Little or no crown. Ditched on less than 50% of the road. Additional gravel needed on entire road along with ditching.	\$125,000
1 to 2	Failed Road. Reconstruction.	\$250,000

The following figures compare PASER ratings for Statewide, County, and Township roads. It is important to note that the ratings shown in Figures 5 and 6 for the County and Township are based on the current estimated rating calculated by Roadsoft based off the last time the road was field rated, and not the actual field rating that was last performed. This version of the database was obtained from the county in April 2023. The PASER system has an automatic diminishing score based on age from the last field evaluation. We understand this is the case as the roads in the County and Township have not been evaluated on a regular basis (see Figure 6 on the following page).

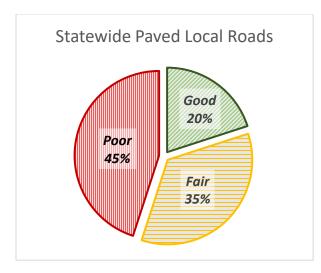

Figure 4: Condition of Paved Local Roads Across the State

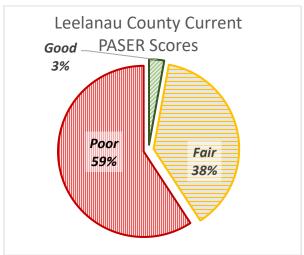

Figure 5: Condition of Paved Local Roads in Leelanau County

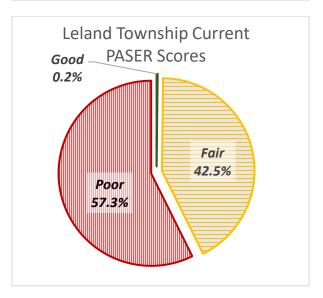

Figure 6: Condition of Paved Local Roads in Leland Township

Good = PASER Rating 10-9-8 / Fair = PASER Rating 7-6-5 / Poor = 4-3-2-1

Leland Township Paved Local Road Ratings

Service Life of Treatments

Service Life is the expected time that a roadway repair will remain effective before the road needs to be reconstructed. Table 3 below contains road repairs and the corresponding service life that can be expected from the repairs. Before repairs reach the end of their service life, preventative maintenance should be performed on a regular basis to continue to extend the life of the road. This will increase the expected service life after repairs are complete.

Table 3: Service Life of Treatments for Paved Roads

		Expected Service Life (years)
Road Rating	Recommended Repair	Life (years)
8	Minor Crack Sealing	5
7	General Crack Sealing and/or Minor Patching	5
6	Patching and Sealcoat	7
	Ultra-thin Asphalt Overlay	7 to 10
5	Asphalt Wedging	7
	Asphalt Wedging and Sealcoat	7 to 10
	Asphalt Wedging and Ultra-thin Asphalt Overlay	10
4	Asphalt Wedging and Overlay	12 to 15
3	Pulverize, gravel and pave	15 to 25
2	Reconstruction	25 to 30
1	Reconstruction due to failed road	25 to 30

For road ratings that contain multiple repair types, the best suited repair should be determined by the County Engineer's field observations. Expected service life may be decreased or preventative maintenance increased if the road is constructed on unsuitable underlying soils. Such soils should be addressed prior to completing repairs.

Gravel roads are treated differently than paved roads. The service life of gravel roads is more difficult to predict. Gravel road conditions can change rapidly depending on the weather, grading layout, and the traffic the road receives.

Table 4: Current Ratings for Paved Local Roads

Current PASER Rating	Road Name	Limits	Centerline Length (miles)	Last Field Rating Date
