Re: **Well #2-3 35kw generator proposal**

Attn: John Friend

Thanks for the opportunity to provide a proposal for the above reference project. Generac believes that with VFD's on the pumps we can go with a 35kw. **Isenhart Electric did not do an in-house load study for the generator and wells.** This pricing does not include hooking up the propane.

Included

- Electrical permit.
- Work to be performed during normal business hours, Monday-Friday 7-5.
- Installation of 1 propane generator.
- Installation of 1 200-amp automatic transfer switch.
- Providing the generator and transfer switch.
- Concrete pad
- Generator to be placed within 15' of building.

Excluded

- New service.
- Patching and painting of floors walls or ceilings.
- Utility fees.
- Propane installation to the generator.

35kw with transfer switch: \$ 60,523.00

We appreciate the opportunity to provide this proposal. Please do not hesitate to call with any questions.

Sincerely,

Adam Erickson
