

## Parks and Rec October 2023

Tim Zywicki has joined the Parks and Rec Board and has been acquainting himself with our many parks and collaborating on the survey. Juliana's 3-year term is up in November and she has chosen to move on. There are two seats open on Parks and Rec.

We received word that the process of evaluating the SPARK grant proposals is taking longer than expected. Now the time frame is "mid-October".

Maintenance supervisor Ken Hagstrom is still resting one arm. He is keeping track of the condition of our parks and Schaub Outdoor Services has been helping us stay ahead of the mowing.

The next Parks and Rec meeting is next Tuesday the 17th, at 5:30 in the Munnecke Room. This will be an opportunity for public comment on the Community Recreation Plan for 2025-2029. There will also be an online survey, which will go live on that date. Town Board members are invited to look at the survey beforehand, which can be found at <https://forms.gle/6BVVWGHQHcGmibLf7>

It is necessary to give answers in order to move ahead in the survey, but the totals will be erased before it goes live. Please give us input before Friday, so that we can incorporate your suggestions into the survey before it goes live.
