Bill Wiesner 00:00

Bill Wiesner, Elmwood Township. **And what I'm passing out there is what Mr. [John] Hunter had in his public comment last week and I just wanted to respond to a few few of the things he mentioned.[See John's letter at the bottom of this article.]** And he mentioned right off the bat that this isn't Antrim County or Oakland County or Maricopa County or Arizona or Colorado or Georgia. So we shouldn't be concerned about what's happening there. But think of it prescriptions some of you might not be old enough to to know when it happened. I don't know exactly what it was long time ago when they found poison in the medicine bottles and they had to recall them all over the country. Well, thing that happens in Maricopa but could happen here. Anything happens to their machines, blackbox machines, which we can't see inside of, affects the national election. So we've got to get rid of all these machines.

I would challenge John Hunter and Keith here and anyone else on the other side that see no problem with these, what exactly goes on inside of those black boxes? Tell me, I would challenge the clerks on that. They do their tests, who sets up the test? Dominion! Vice President of dominion was Eric Coomer. He's been caught lying numerous times and he said, Trump's gonna win. I made sure of that. And the Dominion machines in Georgia are hacked. I don't have my pen here, but that's all they need. So that affects us. They're untrustworthy, those machines and the beauty of [hand counting] the ballots – get Mr. Hunter and Keith on the other side of the table, me and some other Republican will count the votes in our precinct.

He goes on to say, “you can't change the nine day early voting”. Do we want to – do you know how costly that was? Talk about saving money? Making it more convenient for people is making more open for fraud. Absentee Voting, you can't change that? Democrats say that mail in voting, 50% of them say mail in voting makes it easier to cheat. What are we doing with that? That's from the different polls. And you're you have to go by you you can't change anything. You have to go by what the state says? Well the Secretary of State broke the law six times. Are we following her? And how do we trust any elections that she was over? She broke the law to get there.

And see, he said none of you have any, none of you tell them that none of you have any authority to change what this how this county runs elections. That's sort of like I don't know to me, I think of what something Hitler might say. You have no authority here. Just back off and do what we say. He didn't word it that way. He didn't talk that way. But that's what I hear. And there's no reason that we don't go back to secure paper ballots.

And challenged us to get out on the soapbox out in front? That's better effective? Yes. I've already doing that for like a month and a half or two months, and I'll continue to do it. Instead of just setting in here and let everybody coming in and know that we should be concerned that we should stand up like those people at the corner at the Memorial, stood up and fought for our country.

And not concerned about what these people say... Here's a here's a poll Rasmussen April 21 2023 Democrats 50% These are all Democrats up to 50% say things are going bad. I'm running out of time. So I've already gone over that one. 50% say the state and Election Officials are ignoring widespread, widespread election, evidence of election fraud. 2023 May 3, a Rasmussen said overall 62% Say that cheating affected the outcome of the 2020 presidential election. Do we ignore that? Who do we come to? You are our local representatives. Another poll December 12 2023 Shocking 20%. See, voters who voted by mail in ballots admitted to committing fraud in the 2020 election, up to 20% of the vote, according to that poll. And then 2024 February 23. Say let's see, it would be 63% of all people say that voting cheating vote effect.... Anyway, I'm out of time. Thank you.

II. Polls from which Bill Wiesner Quoted – Excerpts:

1. **HUGE: Rasmussen Poll Reveals a Majority of Americans (60%) Believe that Recent Elections Were Affected by Cheating**

Rasmussen shared the results for individual questions as well.

40% say it's important to prevent election cheating

50% say Mail-in voting makes it easier to cheat

48% say cheating affected some 2022 races

50% say state & election officials are ignoring widespread evidence of election fraud

And all of these responses are from Democrats. <https://t.co/T6BLyfs563>

2. **SHOCKING: New Poll Finds ONE IN FIVE Voters Who Voted by Mail-in Ballots Admitted to Committing Fraud in 2020 Election**

According to the results of the poll:

- 17% of mail-in voters **admit** that in 2020 they voted in a state where they are “no longer a permanent resident”
- 21% of mail-in voters admitted that they filled out a ballot for a friend or family member
- 17% of mail-in voters said they signed a ballot for a friend or family member “with or without his or her permission”
- 8% of likely voters say they were offered “pay” or a “reward” for voting in 2020.
- 10% of respondents – not just those who voted by mail – claimed that they know “a friend, family member, co-worker, or other acquaintance who has admitted...that he or she cast a mail-in ballot in 2020 in a state other than his or her state of permanent residence.” (I personally fit in this category, as I know someone who admitted to voting a senior-citizen family member’s ballot)

3. Majority of US Voters Believe Cheating Will Affect Outcome of 2024 Election – Only 37% Say It Is Not Likely – Mostly Democrats, Of Course

A majority of US voters believe cheating will affect the outcome of the 2024 election.

That number includes 52% of all voters, 74%, or three-fourths of Republican voters, and only 32% of Democrat voters. Even one-third of Democrat voters believe the fraud will affect the 2024 election!

Rasmussen reported:

A year ago the number who expected cheating to affect the upcoming election was 54% so it has come down only slightly over the past year.

Ty Wessell 00:01

Okay. Any other public comment? Mr. Hunter

John Hunter_Bingham-Twp-Res. 00:22

John Hunter Brigham township District 2. Good Day Leelanau County Commissioners. There's two facts in that statement. It is "day" and "you are the elected county commissioners of Leelanau County". It's a crown jewel of the Northern Michigan Tierra.

But this is not Antrim County. This is not Oakland County. This is not Maricopa County, California or Arizona, Colorado or the state of Georgia. Your duties and your duties and objectives are defined as county commissioners, by certain statutes within the state of Michigan. You have no authority or governance to change how the voting happens in this state. You cannot change your Dominion voting machines. You cannot rollback the nine day early voting, you cannot rollback absentee voting. Those are things that happen at the Secretary of State's office or the state legislature. You cannot do anything.

But what you can do is in your Commissioner comments, start commenting on the fact that you cannot do anything because that for two years now I've been hearing this kind of stuff mining [?] and it only gets worse and worse as it goes on. And whether you're an outgoing Commissioner, or an incoming Commissioner or a standing for re-election Commissioner – none of you or them will have any authority to change how this county runs elections.

Perhaps it's better if you explain to gently – some of these election deniers – and maybe they'll go somewhere else where it's more convenient. Maybe they'll go to Lansing, where are they maybe get a bigger voice in this matter. Or maybe they'll get a soapbox outside. And maybe they'll stop wasting your county resources, your time, the paid staff and the public's time because you're into overtime already today [@ 12:35 p.m.?]. Now you're on, now you're on a big day. Okay, because of comments like this continually. Well, my suggestion is if you can find a gentle, kind, responsible way to explain the fact that your position no matter who holds it, cannot change the elections in this state, I think you would be doing the public good service. Thank you.
