

Leelanau County – Will Election Fraud Likely Determine the 2024 Election? You Decide.

Note: Our Township and County Clerks and Commissioners who represent us should have to prove that this information concerning election integrity is wrong, not the other way around.

This report lists only a sampling of the fraud in our election system.

1. www.GodsFiveStones.com

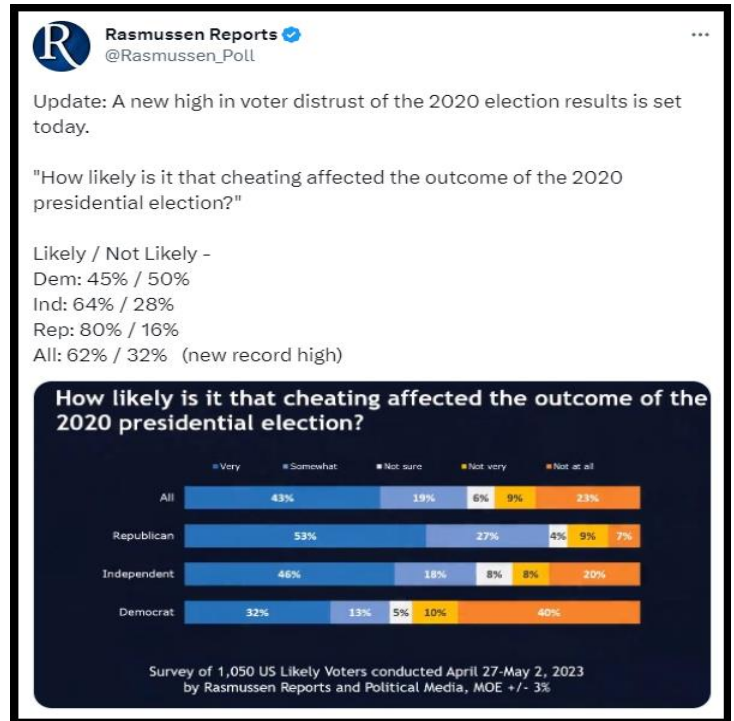

Report Filed Today, Monday, September 16, 2024, with the Office of Frank LaRose, Ohio Secretary of State Regarding the Cryptographic Algorithm Found in the Ohio State Board of Elections Official Voter Registration Database.

Who Placed a Cryptographic Algorithm of Intelligence Agency Complexity into the Ohio State Board of Election Voter Registration Database, and Why?

2. Rasmussen Poll from April 27 – May 2, 2023, Question:

"How likely is it that cheating affected the outcome of the 2020 presidential election?"

Sixty-two percent of all likely voters answered "Likely or Somewhat Likely"

3.

According to **Computer Expert Mark Cook: Dominion's (& Leelanau County & County Clerk Michelle Crocker's) 'Election Source' agents:** "... they admitted that they're aware of the **back doors** and dominion that they continue to sell dominion to the counties despite knowing that there were **back doors.**"

Read and listen to that **8-Page Report (9/10/24)** concerning **'Election Source' COO & VP Agents** on the LC website. **All Leelanau County residents need to hear from Clerk Crocker** regarding Election Source's explanation of these **Dominion Voting Systems' 'back doors'.**

4.

Tina Peters was the Mesa County Colorado County Clerk. She backed up her election computers when Dominion informed her that the so-called “Trusted Build” would delete election records that Colorado law mandated her to keep for at least 25 months.

We Use the same Dominion Voting Machines in Leelanau County, and I assume we had the same “Trusted Build” from Dominion.

12. United Sovereign Americans:

13. LetsFixStuff.org Patrick Colbeck

Isn't threatening an election official itself against the law?

<https://letsfixstuff.org/2024/08/what-happens-in-mi-when-county-canvassers-refuse-to-certify-an-election/>

Yes. Under a new provision of Michigan election law pushed ironically by Democrats, it is illegal to intimidate an election official.

168.931b Prohibition on intimidation of or interference with election workers; violation; penalties; application to constitutionally protected activities; definitions. Sec. 931b.

(1) An individual who intimidates an election official because of the election official's status as an election official, with the specific intent of interfering with the performance of that election official's election-related duties, is guilty of a crime as provided under subsection (3).

So, the chief election official in Michigan and the chief law enforcement officer in

the State of Michigan are each culpable for 336 counts (4 canvassers per county, 83 counties, 4 state canvassers) of intimidating election officials as a result of their threats.

It remains to be seen if they will be held accountable for their actions.

Conclusion

Canvassers in Michigan should send a clear message to both Benson and Nessel that they refuse to be intimidated. The law is very clear. They are under no obligation to certify fraudulent election results, nor should they do so.

14. JD Vance and Tim Walz vice presidential debate – Tim Walz wanting to silence the 62% of American Voters who believe that cheating determined the 2020 election; and refuse to look at all the evidence of election fraud in this flyer) (starting at 1:36:40)

"You can't yell fire in a crowded theater... What I do know is, is I

see a candidate out there who refused, and now again, and this, I'm pretty shocked by this. He lost the election. This is not a debate. It's not it's not anything anywhere other than in Donald Trump's world."

15. Jeff O'Donnell explaining [Cast Vote Records \(CVR\) Interpretation in a 1-page summary.](#)

"Fingerprints of Fraud" 2020 Election Cast Vote Record Report, Volume 1
Summary of Findings
 by Jeffrey O'Donnell (Jeffrey.odonnell@protonmail.com)

The information presented here is a top-level summary of the "Fingerprints of Fraud, Volume 1" report. Much additional supporting information can be found in the complete report, available at <https://FingerprintsOfFraud.com>.

The findings are taken from the 2020 General Election Cast Vote Records (CVR) of 202 counties from nine states, Arizona, California, Colorado, Idaho, Nevada, New Jersey, Ohio, Oregon, West Virginia. A CVR is a record produced by the election computer which shows each ballot processed and the votes which were counted on it, in most cases, in the order of processing. (If the order of the CVR was changed or sorted, this analysis cannot be performed.) They can also include the precinct, tabulator, batch, ballot style, and voting method. No voter-specific information is included.

Because mail-in ballots can be expected to be received and processed by the county in a random order, **only mail-in ballots are used in the analysis**. Since they show a random receipt pattern (based on metrics such as precinct distribution of the ballots), the votes upon them should generally follow the Law of Large Numbers, which dictates that the more samples you have of a random population, the closer their cumulative average should be to the final average. (Think of a series of coin flips or dice rolls).

1. 168 of the 202 counties, or 80%, fall into a similar pattern where there is an initial high advantage for the Democrat candidate, and at some time before the midway point that average gradually turns toward the Republican candidate. Following is a sample that shows this pattern in Mesa County, Colorado.

The red lines on the left-hand chart, which shows the percent of mail-in votes for Donald Trump during the counting (shown in blue), indicate the range which would be expected from the Law of Large Numbers. Instead of expressing the expected pattern, there is a large initial series of votes favorable to Biden, followed by the general gradual increase to the final average. The right-hand chart shows the Trump percentage for each consecutive 100-ballot batch, and the gradual upward pattern is apparent. As I first noticed this phenomenon in this county, I refer to this as the "Mesa Pattern".

2. The 168 counties referenced above also share a "predictive" aspect. Namely, the percentage which Donald Trump had at the end of the counting is 1.1 to 1.3x the percentage he had at the midpoint (with most hovering closely around 1.2).
3. Nearly all the remaining counties which did not show the Mesa Pattern were either very small (under 4,000 total ballots) or showed signs that the CVR was sorted by precinct or other index.
4. Statistically speaking, the chances of 168 counties in 9 states spread across the country demonstrating this same unnatural pattern are too low to be calculated.
5. The 168 counties showing the Mesa Pattern spanned five different election vendors: Dominion Voting Systems, ES&S, Hart Intercivic, Clear Ballot, and Smartmatic.
6. Numerous counties in other states also demonstrate this pattern and will be detailed in future volumes of the report.

These findings demonstrate proof that the mail-in votes in the 2020 General elections in those states were altered via a software algorithm. Please see the entire report (URL above) to view the complete details of each county analyzed.

16. When I attended a **County Clerk Michelle Crocker Leelanau County Election Procedures Class** at Northport on September 18th, I asked Michelle if she could give me her interpretation of **The 'Mesa Pattern' cast vote record finding**, which appears to show election fraud in the mail-in ballots, and which is occurring in 80% or more of the hundreds of counties tested in America. She told me that she would have to check with **Dominion's Michigan 'Election Source' vendor**, and that she would 'follow up', and that I should stop by the office the next time I am up at the Governmental Center (which I have yet to do).

18. **RED FLAGS!** -- Statistics point to Voting Machine Fraud in the 2020 MI Supreme Court Election in both Antrim and Leelanau Counties

(This 2020 Election swung the MI Supreme Court from 4:3 Republican to 4:3 Democrat Control.)

MI Justice of the Supreme Court Contest 2020

Nonpartisan Section

Judicial

Justice of Supreme Court

- Susan L. Hubbard
- Mary Kelly
- Bridget Mary McCormack
- Kerry Lee Morgan
- Katherine May Nagron
- Brock Swartzle
- Elizabeth M. Welch

• Mary Kelly had previous been elected and served as a Supreme Court Justice

• Elizabeth Welch was a newcomer

The result was that the court flipped from 3 Republicans and 2 Democrats to 2 Republicans and 3 Democrats.

Another question for our Leelanau County Clerk Michelle Crocker and all Leelanau County Township Clerks:

How did we get a 34% change or delta for the Michigan Supreme Court in Antrim County when compared with the Presidential race in 2020?

Sheet1

Antrim County MI, 2020 General Election

President	Trump	Biden	Others	Total
	9748	5960	241	15949
	61.1%	37.4%	1.5%	
Reps over Dems for Pres	24%			
Justice of Supreme Court	Top 2 Reps 37%	Top 2 Dems 47%	Other 3 Cands 16%	
Dems over Reps in Justice	10%			
Total Delta	34%	This result is not very likely.		

conservative daily

"Clear the Air, Count and Compare"

All of us should want to know the answer to the following question no matter what our political leanings:

Did a significant number of Mary Kelly (Republican, she lost) ballots get removed and split up and given to Brock Swartzle (Republican, he lost) and Elizabeth Welch (Democrat, she won)?

I am asking all townships in Michigan to encourage & support their local election officials to publicly, with video recording accountability open up their ballot boxes and count the paper ballots for this one race.

And when looking at both **Antrim and Leelanau Counties' 2020 Supreme Court Election Race** and comparing it with the five previous races from 2010, 2012, 2014, 2016 and 2018, getting a **40.2% unexpected delta for Antrim County**, and a **34.6% unexpected delta for Leelanau County**.

Another **question for Michelle Crocker and for all the Township Clerks** to look at and give us your best election knowledge answer: **How did we get these unexpected anomalies?**

ANTRIM County Michigan Supreme Court Elections								
for 2010 to 2020 in Antrim County								
Plus 2012 & 2016 & 2020 Presidential Elections								
	Year	Republican Candidates Percentage	Democrat Candidates Percentage	Republican Percentage Spread	2012 Romney vs. Obama 52.6 : 46.3	2016 Trump vs. Clinton 48.6 : 45.5	2020 Trump vs. Biden 46.8 : 52.0	
Won	F=Full Term P=Partial Term							
2R	2010	67.4	32.6	34.8				
2R	2012-F	51.2	37.9	13.3	21.3			
1R	2012-P	57.4	33.6	23.8				
2R	2014-F	57.0	37.0	20.0				
1R	2014-P	61.3	27.8	33.5				
1R	2016-F	67.2	22.1	45.1		29.4		
1R	2016-P	63.5	23.6	39.9				
2R	2018	58.7	31.5	27.2				
		Ave Spread 2010 -- 2018:		29.7				
		Trump spread win 2020:		23.7				
		(Average Rep Pres Spread 2012,16&20) = 24.8)						
		Expected MI Supreme Court Rep Spread:		29.7				
1D+1R	2020	36.8	47.3	-10.5				23.7
		Total Delta [variation] unexpected difference:		40.2				
INTERPRETATION: Based on the 5 Election Cycles from 2010 -- 2018, one would conclude that the Republicans in 2020 would win the MI Supreme Court by 29.7%. And since the Democrats supposedly won in 2020 by 10.5%, the unexpected delta (variation) is $(29.7 + 10.5) = 40.2\%$.								

LEELANAU County Michigan Supreme Court Elections								
for 2010 to 2020 in Leelanau County								
Plus 2012 & 2016 & 2020 Presidential Elections								
	Year	Republican Candidates Percentage	Democrat Candidates Percentage	Republican Percentage Spread	2012 Romney vs. Obama 52.6 : 46.3	2016 Trump vs. Clinton 48.6 : 45.5	2020 Trump vs. Biden 46.8 : 52.0	
Won	F=Full Term P=Partial Term							
2R	2010	61.7	38.3	23.4				
1D+1R	2012-F	45.5	46.0	-0.5	6.3			
1R	2012-P	51.1	41.2	9.9				
1R+1D	2014-F	53.6	40.9	12.7				
1R	2014-P	55.1	35.4	19.7				
1R	2016-F	62.3	28.8	33.5		3.1		
1R	2016-P	61.6	28.5	33.1				
1R+1D	2018	52.9	40	12.9				
		Ave Spread 2010 -- 2018:		18.1				
		Trump spread loss 2020:		-5.2				
		Expected MI Supreme Court Rep Spread:		12.9				
2D	2020	32.1	53.8	-21.7				-5.2
		Total Delta [variation] unexpected difference:		34.6				
INTERPRETATION: Based on the 5 Election Cycles from 2010 -- 2018, one would conclude that the Republicans in 2020 would win the MI Supreme Court by 12.9%. And since the Democrats supposedly won in 2020 by 21.7, the unexpected delta (variation) is $(12.9 + 21.7) = 34.6\%$.
