Re: South Bar Lake Drainage District

Dear Mr. Christensen:

This is to inform you that at a special meeting of the Empire Township Board held on April 16, 2022, the Board discussed the information given at the April 14, 2022 scope meeting held in regards to the above mentioned drainage district. After review of the proposed plans, the Empire Board approved the following motion:

The Empire Township Board requests that the Leelanau County Drainage Commission choose the most cost effective, long-term, and reliable engineering plan that will remedy the perpetuating and existing problem, with minimal future costs and maintenance, for the culvert area along Lake Michigan Drive in Empire, Michigan. In addition, the Board requests that the Commission reduce the total size of the drainage district.

Thank you in advance for your consideration of our requests and please feel free to contact me at 231-326-5450 with any questions.

Sincerely,

Carl F. Noonan
Empire Township Supervisor
