Subject: Yes to Solar Grant for Leelanau County Building
Date: Monday, February 19, 2024 1:53:06 PM

Dear County Clerk: Please email this to all of the Commissioners today. Thank you. *Gary*

To the Leelanau County Board of Commissioners:

I urge you to vote “YES” for the application for a solar grant to install solar panels on the County Government Center property. This will reduce county building electricity expenses, and will offer a demonstration project for residents, businesses, and other counties as Michigan transitions to clean energy to confront climate change.

Last year, I gave public comment to the Board of Commissioners in support of the then proposed Clean Energy Task Force, specifically suggesting that solar panels be placed on the Leelanau County Building.

I applaud the Commissioners for approving the Clean Energy Task Force. I trust the Board of Commissioners will now move to take advantage of the state incentive funding opportunities to install solar panels in Leelanau County Government Center.
