Subject: A message for all Commisioners
Date: Monday, February 19, 2024 9:11:49 AM

County Clerk, thank you for ensuring that this message gets to all of the commissioners.

This message is to support the “solar power project” for the government center. We think it’s a great idea. Solar power is the most sustainable type of power: it’s efficient, safe, clean, and best of all, it’s free!

We believe the investment it will take to get it set up and running is worth the outcome. We are in full support of this project and expenditure.

Thank you for your dedication to the commission and the people of the LEELANAU County.
