**Subject:** Government Center Solar Grant - Could you kindly forward to all Commissioners?  
**Date:** Monday, February 19, 2024 12:10:29 PM

---

Dear Commissioners,

I was notified last night about the possibility of seeking a grant for solar panels at the Government Center. I am wholeheartedly in support of implementing the best practices in building and infrastructural design in new development / building improvements as a matter of principle. To rely on antiquated, compromising systems when superior, proven innovations are available and even mundane, is to restrict our community from carrying on alongside those that show leadership within a Nation fundamentally based on progress as a value. When faced with opportunity, we should do our best to be our best. Let the higher performer become the standard, rather than the alternative!

Sincerely,

Takei Yamasaki, Empire
