---

Hello,

We are property owners in the Timberlee Hills subdivision and recently received notification about the prospect of a drain being constructed or improved along Fouch Road. In addition, I had a brief phone conversation with Steve Christensen, Leelanau County Drain Commissioner, who provided further details about this project.

To whit, I would like to add my comments/questions to your meeting scheduled for Thursday, October 29th. I am unlikely to participate in the meeting (either in person or remotely) and would greatly appreciate it if I could get some type of response after the meeting.

- This project was petitioned for by someone that lives on Mount Josh Road.
- This project will include paving or asphaltting a portion of Mt Josh Rd that runs North/South to Fouch Road.
- What will happen to the small portion (~2000 ft) of S Timberlee road that runs East/West from S Leelanau way to Mount Josh Road? I am interested in seeing that paved also.
- What will be the total assessment per property owner? I was told that this may be "according to benefit", meaning that those directly affected (not us) would pay more than those less affected.
- When/how will property owners be notified about this assessment? Will property owners be asked to vote yes or no on this assessment?
- What is the time frame for this project?.

Again, I would greatly appreciate receiving a response to my questions.

Thank you.

Regards,  
Rob & Lori Krinock
