Hi Jason. I spoke to Drain Commissioner Steve Christianson today. It sounds like it stems from issues South Timberlee Drive. Elmwood Township has no input in the process.

There is a Board of Determination Meeting at the Governmental Center at 7:30 on October 29, 2020. You may also participate via Zoom. I would encourage you to attend and give your input.

Sincerely,

Jeffrey K Shaw, DC
Elmwood Township Supervisor

Subject: Timberlee Drain?

Hello everyone. We received a letter from Steve Christensen on the 10th stating that a new drain was going to be proposed for our neighborhood. My first thought on this is that it seems unnecessary. More explanation should be provided to us as to why.

I've lived here since 04 and have never seen any flooding in our neighborhood. Have there been complaints on flooding or water not draining properly? I've asked a few neighbors and nobody has heard of flooding either. Everything, simply drains down the hill.

Can someone please clarify why this is being brought up and why it's deemed necessary? Thank you.

Sincerely,

Jason LaVanture
