Subject: Timberlee Drainage Proposal
Date: Tuesday, October 27, 2020 6:06:20 PM

To Whom It may Concern

We are writing this letter in regards to the Timberlee Drainage District Proposal. We live at 7160 East Fouch Road (Paul & Gaylene Whiteford).

Our property will be supposedly receiving the water you wish to drain from South Timberlee Drive. We are adamantly OPPOSED to this idea. We already receive large sums of water from neighbors to the East of us. We also receive large amounts of water from the South and Southeast draining onto our property. We do not want more drainage on our property nor through the ditch on our property. In conjunction with our own water issues off our property we feel this is an added burden to us to maintain. Nor do we feel we need to pay a special assessment.

We have spent the past 4 years cleaning up our ditch to help with our own drainage issues. We also have a mosquito problem due to the large amount of water we get. Also across the street the drain has NOT been maintained by the county in the 4 years we have lived here.

See pictures attached. We also are sending additional pictures in a second email since they all would not fit in this email. Thank you

Sincerely

Paul & Gaylene Whiteford
231-271-3430
