Subject: Support for Solar Energy Grant
Date: Monday, February 19, 2024 10:14:19 PM

Please forward to the commissioners for the Tuesday meeting. Thanks

Dear Leelanau County Commissioners,

I am writing in support of the solar power grant application for our county. I am a resident of Elmwood township which has already approved and seen the installation of two sets of solar panels along M-72. I am 81 years old and have observed the moderation of our winters and the radical climatic events from around the globe. I am aware of the impact on our humanity as well as the threats to our fish and animal stocks. Solar is clean and effective as a generator of energy. Please continue to support our investment in clean energy. It is our wisest course at this time.

Thank you,

Whitney Roberts
Elmwood Township
