PRESENT: \_\_\_\_\_

ABSENT: \_\_\_\_\_

The following ordinance was offered by \_\_\_\_\_ and supported by \_\_\_\_\_.

AN ORDINANCE TO AMEND THE ZONING ORDINANCE OF THE VILLAGE OF EMPIRE BY ADDING SECTION 3.12: SIGNS AND TO REPEAL ALL ORDINANCES IN CONFLICT HEREWITH

**Part I.** The Village of Empire ordains: Article 3 of the Zoning Ordinance of the Village of Empire is hereby amended by the amendment of Section 3.12, which shall be read in its entirety as follows:

**Section 3.12 – Signs**

**1. Purpose.**

- a) This section is intended to regulate the size, number, location, and manner of display of signs in the Village to carry out the following purposes:
  - i) To protect and further the health, safety and welfare of Village residents, property owners, and travelers caused by signs which obstruct vision, distract, disorient, or confuse drivers or pedestrians, or are improperly secured or constructed.
  - ii) To conserve and enhance community character by reducing visual clutter which can arise due to excessive or unregulated signage, temporary signage, or other signage which is improperly located or unreasonably distracting.
  - iii) To promote uniformity in the size, number and placement of signs within each zoning district.
  - iv) To promote the economic viability of commercial areas by minimizing visual clutter and allowing for proper placement of signs to safely direct motorists to their destination; to allow businesses the opportunity to use

- v) the signage permitted to them to advertise their businesses and to direct customers to their businesses.
- vi) To promote the use of signs that are safe, aesthetically pleasing, compatible with their surroundings, and legible in the circumstances in which they are seen.
- vii) To carry out these purposes in a manner that is content neutral by regulating the size, number, location and other physical aspects of signs without respect to their content, except as the content may relate to the location of the sign for regulatory purposes or conveys information essential for safety purposes.
- viii) To respect the rights recognized by the courts for residents to use signage on their premises to express their viewpoints or personal messages, with additional opportunities during limited seasons, by regulating the number, size and location of signs, without reference to the message the occupant of the premises may choose to convey.
- ix) To recognize that signs with messages which change automatically by electronic or mechanical means by their nature pose a greater risk of motorist distraction due to the changing nature of the sign, message, or graphics, as opposed to a static sign, the distinction being similar to the distinction between a painting and a television set. It is recognized, however, that in limited sizes and locations, such signs serve a valuable purpose of providing up to date information, requiring a balancing of the impact of such signs with their benefits.
- x) To recognize that directional signage and traffic control signs such as street signs, stop signs, signs within commercial or institutional sites which direct traffic or identify facilities for the disabled, address signs or which identify historic or public service sites, serve an important function of promoting traffic safety by avoiding driver confusion and promoting the safe flow of traffic, and allowing ready location in emergency situations. In addition, it is recognized that such signs are often placed by governmental entities that are not subject to local zoning.
- xi) To require that signs of significant size and substantial construction obtain a permit to assure compliance with the ordinance and codes, while recognizing the administrative burden of requiring permits for certain small and non-permanent signs outweighs the benefit of prior permitting.

The regulations contained in this ~~chapter~~ ~~section~~ involve a determination by the Village that the rights of sign owners to convey a message must be balanced against the public right to be free of signs which unreasonably compete for attention, distract drivers and pedestrians, or produce confusion. It is recognized that sign regulations must afford businesses a reasonable opportunity to communicate. It is also determined, however, that oversized, projecting, distracting, clutter, or crowded signs can lead to pedestrian and driver confusion,

disorientation, and distraction and endanger the public health, safety and welfare. To lessen such adverse consequences, reasonable limitations and restrictions are appropriate with respect to the placement, construction, size, type, and design of signs ~~in location of buildings and uses and the availability of other means of communication.~~ **based on the regulation, location, uses, and availability of other means of communication.**
