> Subject: septic

>

> Leelanau County has the second highest proportion of water area of any county in the United States. In 2011 Sleeping Bear Dunes National Lakeshore was voted "The most beautiful place in America" by Good Morning America in 2011. No doubt we are so blessed to live here and have an obligation to give back by protecting this gift we have been given. The fact that there is a global water shortage when only 3 per cent of the the world's water is fresh compounds our need to be vigilant. Please be part of the solution to protect our water by making sure that septic tanks are keeping the surrounding environment and water sources clean and safe. Thank you
