We went over the “Knowns” once more at the request from a village resident. It was noted that we have already addressed the issues presented

We talked about the effect of STRs on the long term rental market.

We discussed the pro’s and cons of STRs to the community.

We focused on the Ordinances of three local communities: Onekema Township, the Village of Elk Rapids and The Village of Northport,

We discussed the differences in their ordinances: whether they had a “cap” on STRs, what was included in their ordinances, the “grandfathering” in of existing STRs and ways to bring down the number of STR if needed.

Comments were accepted from audience.
